

FOR IMMEDIATE RELEASE

Initial Public Offering

Vestrax [VFH] issues 10,000 Class A Shares

Vestrax listed on Crimson Bank

After much deliberation, Vestrax Financial Holdings will now be listed onto Crimson Banking at \$94.95 per share effective July 16th, 2025. This IPO was aided by the underwriting of Crimson Bank which modeled and valued the company at the initial price. We will be issuing 10,000 Class A shares (12.86%) in this initial round of capital raising. These Class A shares give the owner direct vested interests within Vestrax as well as a vote on internal management decisions. We welcome new investors into the company on top of existing bondholders and hedge fund investors as a way to grow the company and its operations into a multi-million corporation.

Company Bylaws Established

With the introduction of Vestrax as a public company, we have established company bylaws in order to become more transparent to new shareholders and executives on how the company operates and is to be managed.

1 Million Milestone/7 Million Market Cap

With the raising of capital in the issuance of Vestrax Stock, the company now has a collective \$1.6 million dollars in assets under management. In addition, this IPO values Vestrax at a \$7.3 million dollar valuation and an inadvertent 712% overall increase in our Hedge Fund through this capital

investment which we find incredibly beneficial in future operations. (This IPO will not inflate hedge fund investor accounts)
